**RE: Information Request Dated April 4, 2011**

Dear Mr. Baker:

I am in receipt of your information request dated April 4, 2011. In your letter, you indicated that for ease of reference, you were utilizing the same numbering that was utilized in your March 14<sup>th</sup> information request. This letter responds to the requests where information is readily available. Our responses to each of the information requests are below:

1. The City misunderstood the scope of this request. This request relates only to the MEF and CEO bargaining units. Thus, the request should be read as follows: "A list of all job titles in the MEF and CEO bargaining units with the current salary information for each incumbent, date of hire, and fund in which personnel costs are accounted." With that clarification, AFSCME renews this request for information.

In a negotiation meeting on March 28, 2011, we discussed the difficulties with providing MEF and CEO the information related to which fund comprises the personnel costs for each employee. We discussed that we could provide the other parts of that particular information request for those employees represented by MEF and CEO, which we did in our April 4<sup>th</sup> response. Below is a link to that response:

<http://www.sanjoseca.gov/employeeRelations/mef/2010-2011/CityResponseTo03.29.11MEFandCEOInfoRequestDated04.04.11.pdf>

2. The website address you identified in response to this request is not accessible. Accordingly, AFSCME renews this request for information.

Please refer to Attachment A, which contains information regarding service contracts since Fiscal Year 2005-2006.

8. You have asked AFSCME to state the relevance of this information request. The request for overtime information is relevant to the City's bargaining proposals to cut unit employees' wages and benefits. The goal of the City's proposals is to lower City personnel costs. Overtime makes up a portion of personnel costs, and overtime, if not properly managed, can be an excessive drain on City revenues. AFSCME seeks the requested information to determine whether the City's overtime costs are rising or falling over time, to determine whether some departments have excessive overtime costs compared with others, and, overall, to determine if overtime-cost management might be an area the parties explore in negotiations as a means of achieving the City's goal of reducing personnel costs.

As we indicated in our March 21<sup>st</sup> response, the City would have to do significant analysis to provide MEF and CEO with the overtime expenditures by City department for the last five (5) Fiscal Years, as well as projections for future years. Given that the information is not readily available and would be unduly burdensome and costly to obtain, we provided a cost estimate for this information in our March 21<sup>st</sup> response. Below is a link to that response:

<http://www.sanjoseca.gov/employeeRelations/mef/2010-2011/CityResponseTo03.14.11MEFandCEOInformationRequestDated03.21.11.pdf>

Your letter dated April 4, 2011, also included new requests for information. As stated above, this letter responds to the requests where information is readily available. Our responses to each of the information requests are below:

9. The most recent statement of assets for the Federated City Employees' Retirement System plan.

The statement of plan assets can be found in the Federated City Employees' Retirement System Comprehensive Annual Finance Report (CAFR), which we previously provided in our February 24<sup>th</sup> response. For your reference, we are providing you the link to the CAFR again. A copy of the CAFR can be found at the link below:

<http://www.sjretirement.com/Fed/Plan/CAFR.asp>.

10. The average monthly pension benefit for MEF retirees and average monthly pension benefit for CEO retirees.

As we indicated in our February 24<sup>th</sup> response, once an employee retires, the former employee is no longer represented by a union. Therefore, the Retirement System does not differentiate employees who retire from different employee units. As a result, we would not be able to provide information specific to retirees who previously were represented by CEO or MEF.

However, as we previously provided, information regarding the average annual pension payment for employees in the Federated City Employees' Retirement System can be found on the City's Retirement Benefit's Information website, which is available at the link below:

<http://www.sanjoseca.gov/employeeRelations/RetirementBenefits.asp>.

11. Has the City prepared, or had prepared for it, cost projections for the City's second tier retirement options? If so, AFSCME requests a copy of any reports containing such projections.

Please note that the City has not proposed a second tier retirement and has only proposed to continue meeting and conferring on the pension and retiree healthcare benefits for current and future employees, including but not limited to healthcare benefits. As the City has not proposed a second tier, we are not in possession of information regarding the cost implications of a second tier.

In addition, it is unclear how this information is necessary for MEF and CEO to provide a counterproposal to the City's current proposals, especially since there is no proposal to change from the current system to a tiered model.

Sincerely,

A handwritten signature in black ink, appearing to read "Gina Donnelly", written in a cursive style.

Gina Donnelly  
Deputy Director of Employee Relations

c: Charles Allen, AFSCME Business Representative
